8	Bass DI	16		24		32	

NOTES

Guitar Stage Left is an AXE-FX modeller - direct out and stereo.

We have an IEM system with a split snake for the above channels (we control our own IEM's in most cases). Would like 1 backup wedge monitor Centre Stage for Lead Vox.

We can supply all mics.

*NOTE: if playing a multi-band show with quick turn around, we can use wedge monitors in place of our IEM's
